	TERRITORIAL COOPERATION PROJECTS						INTERREG IVC	
				PROGRAMME				
						Public Funding paid to beneficiaries		
Project Ref No.	Name of beneficiary	Ministry (for Public Sector Organisations)	Name of Operation	Project Description	Year of Allocation	Year of final Payment	Ammount Committed EU & Malta share €	Amount Committed EU Share €
0301R1	MEPA	MTCE	RSC	The objective of the project is to promote climate friendly economies by developing the potential of regional development programmes to stimulate mitigation and adoption to climate change and to deliver sustainable socio economic development. The RSC project will address this issue by analysing current regional practices, developing benchmarks and indicators, as well as preparing a methodological handbook to assist regions to integrate climate change issues into regional development plans and to use the environment as an economic driver. The project will also include pilot actions, such as the preparation of a carbon footprint of regional development programmes.	2008	2011	121,267.00	103,077.00
0226R1	FTZ		EVITA	The EVITA project builds on a number of good practices aimed at improving the effectiveness of regional development policies vis-à-vis SMEs and e-business practices in regions that have a low ICT and e-business take-up.	2008	2011	188,900.00	160,565.00
0266R1	MGTIL	MITC	DC	The main objective of the DC project is to tackle the low penetration rate of Information Communication Technologies at the local level by providing organizational structures, strategies and the tools required for facilitating ICT take up.	2008	2011	80,000.00	68,000.00
0811R2	MCA	MITC	ICT-VN	The project focuses on the promotion of ICT vis-à-vis the development of SMEs, with a specific focus on three key sectors, namely agrifood, commerce / services and tourism.	2010	2012	170,900.00	128,175.00
0722R2	MITA	MITC	Pooling 4 Clusters	The POOLING4CLUSTERS project will analyse and share experiences regarding value added services provided by Development Agencies in order to help Cluster Initiatives to be more efficient and to boost their contribution to the success of regional development objectives.	2010	2012	119,244.40	101,357.74
0694R2	Wasteserv	MRRA	Prewaste	The Pre-waste project aims at improving the effectiveness of waste prevention policies in EU territories in order to reduce waste production and hazards significantly, through the close collaboration of local and regional authorities, public entities and other stakeholders.	2010	2012	131,180.00	111,503.00

0873R2	LCA	MHPA	SHARP	SHARP focuses on the exchange of innovative technologies to protect groundwater resources by analysing the different geological and geographical characteristics of regions involved.	2010	2012	109,676.00	93,224.60
0682R2	MGOZ	MGOZ	ICER	The ICER project will lead to increased awareness among the relevant decision-makers for innovative tourist concepts of public policies aiming at strengthening the attractiveness and competitiveness of their rural areas.	2010	2012	189,800.00	161,330.00
1008R4	LCA	MHPA	INEUR	IN-EUR is based on analysis of existing methodologies for measuring innovation at NUTS III level through in depth, interregional exchange. Methodologies are updated and adapted in order to produce a shared tool, the Advanced Local Balance of Innovation (ALBI) model,which can be applied to partner regions and on a wide scale outside the consortium.	2012	2014	152,774.60	129,858.40
1022R4	MIEMA		ECOREGIONS	The overall objective of the ECOREGIONS project is to improve the effectiveness of local and regional development policies in the areas of eco-innovation and more specifically green technologies, through the exchange, sharing and transfer of policy experience, and good practices in the field, in order to contribute to the economic modernisation and increased competitiveness of concerned European territories.	2012	2014	76,695.00	65,190.00
1026R4	Poala Local Council	MHPA	HybridParks	The project focuses on the exchange, transfer and development of policies to enhance the contribution of parks (as an element of cultural heritage and landscapes) as high quality environments for citizens and visitors, for sustainable tourism and early strategies to mitigate the risks of climate change.	2012	2014	175,397.00	149,087.00
1048R4	Poala Local Council	MHPA	AT FORT	The overall objective of the project is to facilitate the adaptive re-use of fortified heritage sites by exploring solutions for successful approaches and methods to deal with enabling conditions and to create better frameworks for their exploitation.	2012	2014	176,586.00	150,098.10
1051R4	Ghajnsielem Local Council	MHPA	GreenInfraNet	The project aims to develop new approaches that aim to conserve biodiversity and maintain ecosystem services across the wider countryside but which are framed in close cooperation with other policy measures, such as agriculture, urban development, transport, re-creation and climate change adaptation.	2012	2014	74,945.00	63,703.00
1066R4	FTZ		BOOGAMES	BOO-Games overall objective is to improve regional policies in the fields of digital and interactive media strategy in order to strengthen the games sector in Europe and thus contribute to Europe's innovation and competitiveness.	2012	2014	100,135.60	85,115.00
1070R4	LCA	MHPA	GRISI PLUS	The main goal of GRISI PLUS project is to improve the effectiveness, modernize and enrich public rural development policies in partners' regions by increasing the use of geographical information and geomatics tools.	2012	2014	81,815.00	69,542.00

1098R4	MIEMA		4POWER	The overall objective of 4POWER is to prepare EU (coastal) regions for off shore wind developments, by exchanging knowledge, experience and best practices on OSW(Offshore Wind Energy) supportive policy instruments and effective implementation. With 4POWER, local and regional authorities will have a pro-active role in OSW development, contributing to a faster transition to renewable sources for energy generation and the EU's 2020 CO2 reduction agenda.	2012	2014	84,458.11	71,789.39
1109R4	FTZ		EuroScreen	The overall purpose of EuroScreen is to maximise the economic synergies between the screen and tourism leading to the sectors' increased innovation, competitiveness and growth across the EU. It has been demonstrated that the representation of cities and regions in audiovisual media (films, tv series, adverts, internet, etc) is both important in strengthening and sustaining the diversity of different EU states' culture, and increasingly, having a substantial economic impact on tourism.This project will address relevant policy makers' knowledge gap in understanding the screen sector's economic benefits and positive impact on tourism.	2012	2014	168,223.64	142,990.00
1191R4	DLG	MHPA	CERTESS	CERTESS project aims at setting up a common methodological framework on how to develop, manage and enhance European Cultural Routes (ECRs), by utilising reference development and governance instruments targeted to foster sustainable cultural tourism.	2012	2014	138,668.00	117,867.80
1237R4 FTZ			Lake-Adm	The overall objective is to improve goal setting and quality of lake restoration outcomes and results in regions which have acknowledged the importance of lakes in their economic development.	2012	2014	141,000.00	119,850.00
1238R4	LCA	MHPA	Medi@TIC	Medi@TIC aims to share information and experience between regions and cities who have strong specializations in the media and digital sectors, to assist those sectors in updating technologies and working more efficiently in world marketplaces. Its goals will be to improve local and regional knowledge on new opportunities presented by the Information Society for the media/audiovisual sector, and to identify innovative ways to support the sectoral companies to adapt to such opportunities and challenges.	2012	2014	113,117.00	96,149.45
1288R4	TM	MITC	D-AIR	D-AIR largely contributes to converting airports into ecological sustainable transport hubs. It deals with 2 main elements of airport operations that can fall in the competence of public authorities and public bodies: surface accessibility to airport zones and CO2 neutrality of airport operator activities. The project also tackles the optimal involvement of business and R&D communities in creating well connected green airports, by contributing to new innovative products and services needed to realize prompt actions on the ground.	2012	2014	135,112.00	114,845.00

1306R4	MIEMA		GreenITNet	GreenITNet aims to develop, exchange, and disseminate a framework for effective policies to stimulate greening of IT, greening by IT and establishing a green IT economy, and will develop and disseminate experience on how to assess and implement such policies.	2012	2014	142,884.27	121,451.63
1348R4	Malta Enterprise	MFEI	Young SMEs	Young SMEs' is the term used in the project to refer to SMEs between the 3rd and 5th years of operation.The partnership's overall objective will be to jointly define local and regional development strategy recommendations and instruments to support SMEs consolidation during its 4th and 5th years of operations and, based on the project results, to offer operative models to all European Regions. Supporting these businesses will improve the ability of economies to successfully compete and grow.	2012	2014	60,832.96	51,708.02
